

GENERAL TERMS OF SALE

1) GENERAL POINTS

Except special and written agreement, the customer recognizes to have taken knowledge of our general terms of sale and to accept them in spite of all contrary stipulations appearing in his own general terms of purchase.

2) TIME LIMIT OF OPTION

All our quotations have a validity of thirty days (30 days) from the date of our offer.

3) PRICE

Only prices indicated in our offer and confirmed by ourselves can commit us if our offer has been accepted in the above indicated time limit. In the contrary case, they can be modified without prior notice according to the evolution of the market.

4) TERMS OF CONSIGNMENT AND DELIVERY

Consignment and delivery times are given for information only and without guarantee. Whatever the place of delivery is, time limits don't take into account the routing time and are understood date of departure of works. These time limits can not give rise to penalty, damages, or cancellation of order except agreement on a deadline put on our acknowledge receipt. Only in this case the purchaser will be able, after having given notice to deliver, to ask for the cancellation of the order for no respect of time limits, all rights to compensation being excluded however of explicit convention because of this no respect.

Reserves and resort against the carrier are the purchaser's responsibility. These should be done in the legal time limits, immediately on the carrier's delivery slip, confirmed by recorded delivery letter within 3 working days after the receipt in France, and within 7 working days for the other countries. A copy of these reserves will also be sent to us.

To our request or the purchaser's one, we will be able to do partial deliveries that will lead to an invoicing and to payment, without waiting for the order balance.

5) RISK TRANSFER

Goods travel at the purchaser own risk, despite the measures dealing with property reserves. If the goods are taken in our works, they are to the purchaser's risks from the day they are put at his disposal. Our products are reputed and ratified in our works, though prices should be established carriage paid.

6) PAYMENT

Only terms of payment indicated on our quotations and/or on our acknowledge receipts are valid, whatever is indicated on the purchaser's order form. The date of our invoices is the starting point for the time limit given to the purchaser for the payment, the date of payment required is the one indicated on the invoice. In case of late payment, an interest which is intended to make up for our financial loss will be asked to the purchaser from the settlement date without making the payability of invoices differed. This interest will be equal to once and half the legal interest rate. In case of early payment no discount will be accepted.

7) **RESERVE OF PROPERTY**

We reserve ourselves the property of goods delivered until the payment of all sums owed to us by the purchaser, in accordance with the arrangements to the law 80.335 of the 12.05.1980. If goods have been resold by the purchaser, we will have a direct action on the sale's price of these goods that are in the subpurchaser's hands, who will be held to free himself between our hands of the sums owed.

8) **GUARANTEE-REPAIRING**

Our material is guaranteed 12 months from the date of delivery. In all cases, the warranty is limited to the replacement of parts manufactured by us and recognized faulty. All other components from various source are warranted following special terms fixed by the concerned suppliers.

Parts sent back by the purchaser will be replaced free after inspection by our technical departments but this will not extend the warranty of these pieces at all. All other expenses, and especially transport and travelling costs will be paid by the purchaser.

Repairing will be subjected to a previous agreement confirmed by quotation.

The warranty is excluded if the running fault results:

of unfair wear and tear of the product

of its damaging because of a negligence or a faulty setting (no respect of setting notices, connection)

if modifications or additions have been done on our products by the purchaser without our previous written agreement.

9) **INTELLECTUAL PROPERTY AND CONFIDENTIALITY**

SLYCMA preserves the whole property of projects, study, sketeches, documents sent to the purchaser, patented or not.

They should remain confidential and should not, without the written authorization of SLYCMA, be communicated, neither reproduced, nor used for needs different from those for which they have been given.

10) **ATTRIBUTION OF COMPETENCE**

Any dispute concerning the present sale, even in case of warranty resort or if there are several defendants, will be, if there is no friendly agreement, of the exclusive competence of the Trade Courthouse of Lyons.
