What makes folding doors SLYCMA, the lift doors that that gives you the keys to achieve a successful modernisation ?

# Key features

EN 81-20/50

2014/33/UE

EN 81-21 (In option)

1. The flat closing of the door panels,
2. Quiet and smooth operation,
3. Easy to install,
4. Improved accessibility,
5. The opportunity to make bespoke uprights and headers,
6. Maximum reliability thanks to the control card which equips all our car doors,
7. Space saving on the landing,
8. Symmetrical opening,
9. Aesthetics regardless of the finish,
10. The opportunity of replacing an existing swing door,
11. The ability to combine the PLYPAL with existing swing doors on the same elevator,
12. The first EN 81-20 folding door.
