# Our history

In 8 key dates

**1972**

The creation

Slycma was founded for the manufacturing of swing doors.

**1980**

Automatic doors

Slycma innovates, designs, and tests its automatic doors. It is the first company to subject its doors to tests of several million operations before being placed on the market, through external laboratories.

**1990**

Partial modernisation

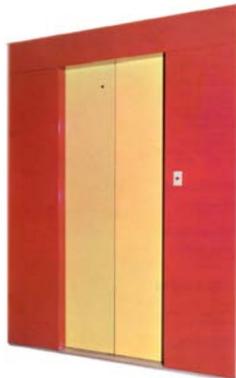

Passenger and technician safety began to draw the attention of public authorities. Slycma started offering landing and car doors compatible with existing equipment, enabling partial modernisation and cost optimisation.

**2000**

Safety components

Slycma became a fully-fledged industrial company, diversified its activities, and began developing safety components addressing the safety functions related to doors.

Safety component

## 2010

Renewal

While renewing itself, Slycma retains the strengths that make it unique: a high level of customisation, the ability to manufacture small-series, tailor-made products, and adaptability to existing equipment.

## 2016

The SODIMAS group

Slycma leaves the RUGET Group and joins the SODIMAS Group, the leading independent French manufacturer of lifts and doors, operating both in France and internationally.

## 2017

The EN 81-20/50 standard

Slycma transformed its entire product range to meet the requirements of the Lift Directive according to the harmonised European standard EN 81-20/50.

## 2024

Focus on innovation

The company continues to grow and develop innovative new products, such as the folding landing door PLYPAL.

“Our company, based in Brignais, France, is guided by core values :  
Expertise, dynamism, attentiveness, and closeness.”

# OUR VALUES

## EXPERTISE

Renowned for its expertise and commitment to excellence. We design innovative lift doors, adaptable to the specific needs of each of your projects.

## DYNAMISM

Our expert teams are constantly driven by innovation and the search for tailor-made solutions that meet market requirements. Responsiveness and dynamism are the strengths guiding each of our designs, ensuring fast and effective solutions to your needs.

## ATTENTIVENESS AND CLOSENESS

We place client relationships at the heart of our approach. Our goal is to build a lasting partnership and support you throughout your project, from the initial measurements to post-installation follow-up.

SLYCMA's support doesn't stop at sales and commercial follow-up. Our design office plays a key role, with two main divisions :

- **Special Projects** : This division handles your custom requests, prepares detailed instructions, and for complex products, conducts tests in our laboratory before shipment.
- **Product Development** : Anticipating market needs, this division carries out technical and regulatory studies to design increasingly high-performance products, in collaboration with management and the sales team.

# OUR DESIGN OFFICE

## Our Design Office has a threefold mission :

- Develop new products
- Adapt standard products
- Anticipate market needs

Specific parts are manufactured in our workshops.  
Every door produced by Slycma, whether standard or custom-made, benefits from the same commitment to improvement, innovation, and manufacturing quality.

# OUR WORKSHOP

Because lead times are the key factor in managing your projects, we have organised our production to adapt to your needs.

**A 5,000 m2 workshop entirely dedicated to lift doors.**

**Every modernisation is unique.  
So are our doors.**

As the leading French manufacturer of lift doors, we have been exploring since the 1990s the best ways to modernise lift doors, offering both standardised and customised solutions.

# Your doors hold no secret for us

Experts in lift door modernisation for over 30 years, we possess unique knowledge of the French market. This expertise allows us to consistently provide the equipment best suited to your project.

Our **tailor-made solutions** are designed to meet your exact specifications while optimising both costs and lead times!

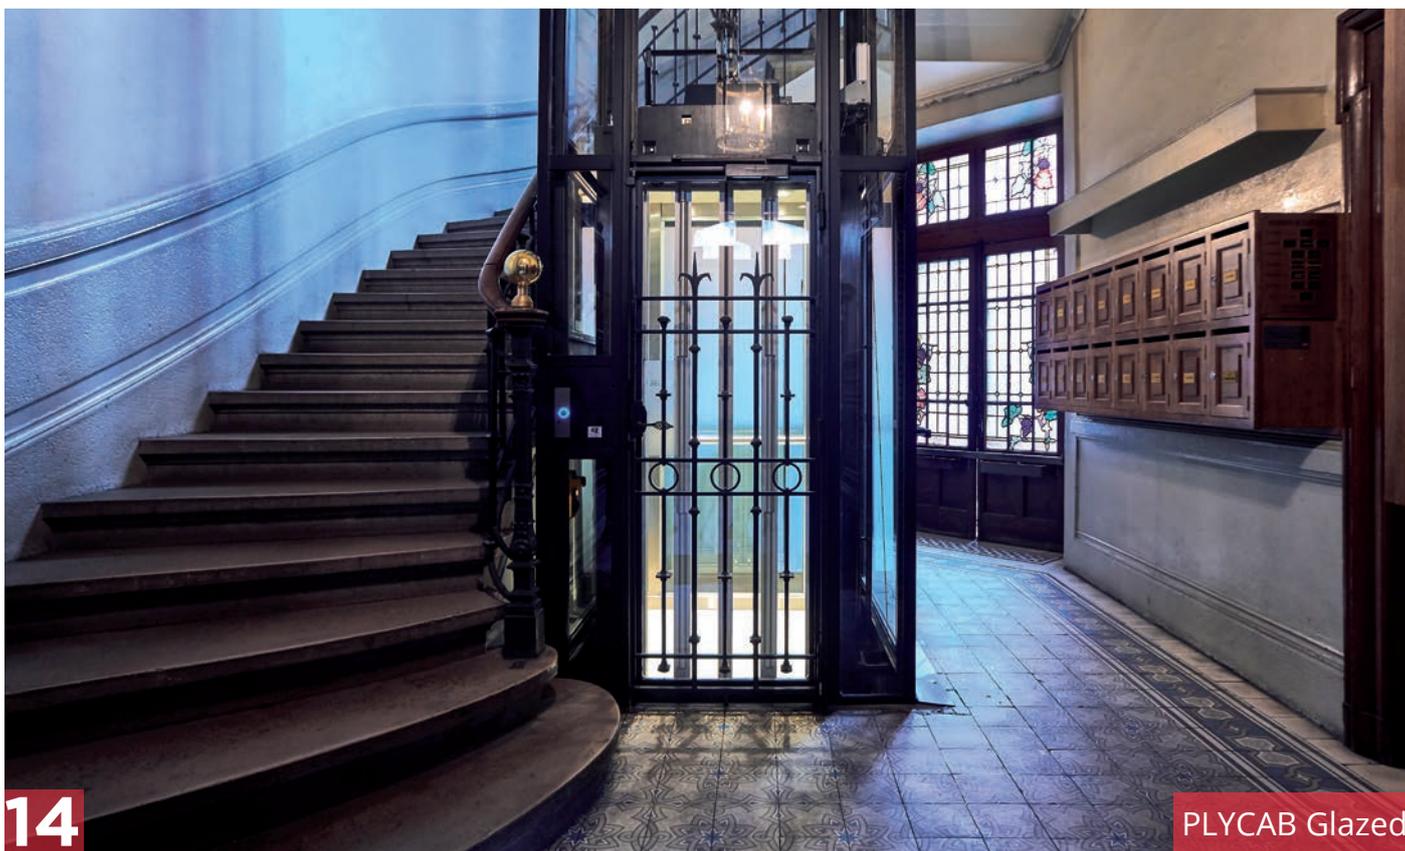

We can make our doors compatible with any other type of door on the market – no need to replace all your equipment!

Our expertise extends to a variety of modernisation solutions: renovation kits for landing doors, LYNEA motorisation kits for swing doors, and modernisation kits for car doors. **We adapt our solutions to every configuration, without constraints.**
