RHEA FULL GLASS

key features

What makes RHEA FULL GLASS, a unique elevator door with a premium design?

1. Mechanical parts invisible in the clear opening.
2. Sliding panels directly in the doorsill.
3. 2 different design available : Full Glass or Absolute Full Glass.
4. Total glazing without plinths regardless of the design.
5. Complies with the resistance test according to EN 81-20/50.
6. Personalization of the panel edges in Full Glass version is also possible.

EN 81-20/50
2014/33/UE
EN 81-21
