

# SD 130

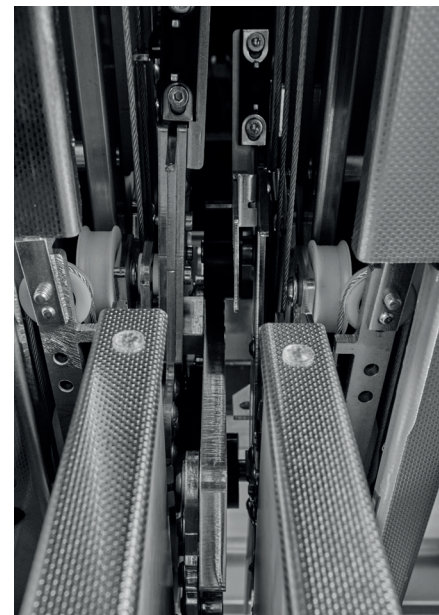

4 PANELS  
CENTRAL OPENING

THE DOOR THAT IMPROVES ACCESSIBILITY !

LIFT DOORS

# SD 130

What makes the SD 130 door the best product for your creations and modernisations in existing buildings?

1. Suitable for all type of buildings with its customizable design,
2. In a tight space, the PL 800 version gives you access to the PMR,
3. The reduced size of the door block allows more space in the car to improve access to the PRM ,
4. The dimensions of the landing door SD130 make it possible to transform your swing doors into E120 automatic fire resistant doors, keeping the frame or not,,
5. Perfect for installation on elevators with reduced bottom and top clearances,
6. Noiseless with boxed panels.
